Hörmann featured on “Designing Spaces” National TV Program

Hörmann was featured on the cable TV network, **The Learning Channel’s (TLC) “Designing Spaces”** series. The headline feature segment, “**The Final Touch to the Ultimate Garage Makeover**” highlighted the company’s polyurethane insulated steel garage door and SilentDrive™ opener with emphasis on design, energy efficiency, convenience and safety.

The episode was filmed in Ft. Lauderdale, Florida and kicked off nationally beginning of June on Women’s Entertainment (WE) channel and on TLC. The thirty minute program also aired several additional times through a combination of TLC and WE network affiliates for ABC, NBC, CBS, FOX, PAX, UPN and other cable affiliates.

Larry Campbell, Hörmann VP of sales and marketing, said “with the potential reach of well over 100 million households across the United States to educate the consumers on features, benefits and the latest technology of Hörmann products; Hörmann has committed substantial resources to participate in this nationally televised and extremely popular programming. This is a great opportunity for us to showcase the international Hörmann brand to the mainstream U.S. market and to support our dealer partners”.

Hörmann LLC manufactures a full range of residential and commercial garage doors. The company is based in Montgomery, IL and has manufacturing facilities in Illinois, Pennsylvania and Tennessee. For more information on Hörmann products, please visit www.hormann.us.
