Section Detail

SECTION DETAIL 425U panels are produced in stucco texture for shallow ribbed design or optional smooth texture for flush design. The door panels are prepared inside and out to offer maximum protection to provide you with a long-lasting surface finish and reduced maintenance cost

Panel Features

The Industry Leader in Innovative Door Safety, Insulation, and Strength

Between Section Seals **1**

Specially designed seals act as a gasket between sections to reduce the air infiltration while further enhancing the insulation properties.

Bottom Weather Seal **4**

Keeps out wind, rain, debris and other elements for added energy savings.

FingerGuard™ Pinch-resistant **2** Section Joints

Prevent fingers from getting caught between the door sections reduces the risk of injuries which may result in worker's compensation claims.

Panel Surface Treatment **5**

Galvanized finished painted steel provides superior corrosion resistance for years of trouble-free performance.

Proprietary Urethane Blend **3**

Perfected over generations, our precisely engineered polyurethane outperforms its competitors in strength, energy efficiency, and density every time.

Panel Design

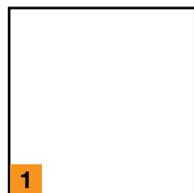

1

2

- 1 Shallow Ribbed
- 2 Smooth Flush (Optional)

Color Options

1

2

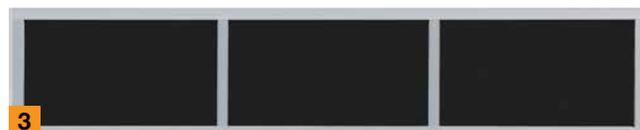

- 1 White
- 2 Galaxy Paint System (Optional)
